Summary: On October 12, 2004, William Reed, Senior Vice President of Regulatory Affairs and Strategic Planning for San Diego Gas & Electric Company (SDG&E) and Southern California Gas Company (SoCalGas), met with Cmmr. Peevey in Los Angeles. Julie Fitch and Rami Kahlon, advisors to Cmmr. Peevey, participated in the meeting via videoconference. Also present was Lee Schavrien, Vice President of Regulatory Affairs for SDG&E and SoCalGas. Written material (copy attached to the notice) was used. In addition, parts of comparison exhibits filed with the Commission were used. Schavrien pointed out that the reasons cited for rejecting the settlements in both the ALJ's proposed decision (PD) and Cmmr. Wood's alternate decision (AD) were in conflict with the record. Schavrien also pointed out that SoCalGas settlement was in fact an 'all party settlement' and that there was sufficient detail supporting the SDG&E and SoCalGas settlements. Reed stated that both the PD and AD authorize a higher revenue requirement for both companies than that contained in the settlements. Reed argued that the prescriptive language contained in both the PD and AD left the companies little flexibility in responding to changing environment, and was in direct conflict with recent language contained in the SCE 2003 GRC decision.

Summary: On October 15, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present was David Rubin, Director of Service Analysis of PG&E. Written material (attached to the notice) were used. Eisenman advocated that no municipal departing load (MDL) be exempted from the customer responsibility surcharge (CRS) unless it had already departed from PG&E service prior to February 1, 2001. Rubin discussed the sales forecast provided by PG&E to the Department of Water Resources (DWR). Rubin stated that the evidence shows some MDL was included in the forecast and that all of this load was transferred load. Rubin added that at the time the forecasts were generated in 2001, PG&E was unaware that municipal utilities were attempting to serve new greenfield load in PG&E's service territory. Rubin argued that for later years, DWR extended PG&E's MDL forecast at the same cumulative level of demand, and that DWR did not extrapolate a higher level of MDL.

Summary: On October 13, 2004, Mark Pocta, Program Manager with the Office of Ratepayer Advocates (ORA), met with Brian Prusnek, advisor to Cmmr. Kennedy, in San Francisco. Also present was Jacqueline Greig, Regulatory Analyst V with ORA. Pocta and Greig stated that Southern California Edison Company has not presented any evidence that Southern California Gas Company (SoCalGas) manipulated the natural gas market or exercised market power during the gas price spike period. Pocta and Greig noted that given that forward prices were lower than June market prices at the time SoCalGas made the hub loans, the SoCalGas decision to make hub loans was not unreasonable. ORA also indicated that it did not see a problem with Gas Acquisition being embodied in the intent of the incentive mechanism, i.e. to reward the utility and its shareholders for lowering gas costs for its customers.

Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

Summary: On October 16, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Cmmr. Brown in San Francisco. Also present was David Gamson, advisor to Cmmr. Brown, David Rubin, Director of Service Analysis of PG&E, Mike Hoover, Director of Southern California Edison Company, and Billy Blattner of San Diego Gas & Electric Company. Written materials (copies attached to the notice) were used. Eisenman advocated that no municipal departing load (MDL) be exempted from the customer responsibility surcharge (CRS). Rubin noted that PG&E has an obligation to serve all customers, while municipal utilities and irrigation districts can selectively choose which customers to serve. Rubin discussed the sales forecast for the 2001-2003 timeframe provided by PG&E to the California Department of Water Resources in February 2001. Eisenman indicated that if MDL customers are exempted from the CRS, remaining PG&E customers will have to pay more.

Blattner stated that SDG&E did not reduce forecasts provided to the Department of Water Resources (DWR) for municipal departing load (MDL), DWR did not adjust SDG&E's forecasts for MDL, nor were any municipal utilities serving customers in SDG&E's service territory on February 1, 2001.

Summary: On October 14, 2004, Dan L. Carroll, outside counsel to Merced Irrigation District (Merced ID) met with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, Janis Lehman for the Anaheim Public Utilities, Joy Warren and Chris Mayer for Modesto ID, Jeff Shields and Jeanne Armstrong for South San Joaquin Irrigation District, Pamela Easter and Clyde Murley for the City of Rancho Cucamonga, Barry McCarthy for NCPA/Turlock ID, Bob Hedrick and Jane Cirrincione for NCPA, Scott Blaising and Jerry Jordan for CMUA, Jim Feider for the City of Redding, Steve Boyd and Jennifer Stone for the Turlock ID, Len Viejo for Astrum Utility Services, Lynn Haug for the City of Industry, Raj Pankhania for the City of Hercules, and Joe Guzman for the City of Irvine. Carroll stated that Merced ID is different from any other publicly-owned utility in Northern California and that new greenfield customers of Merced ID should not be required to pay for services they do not receive. Carroll stated that cost shifting is either a myth or inconsequential. As to transferred load, Carroll stated that PG&E for two years claimed it did not provide any information about its August 2000 bypass report to the Department of Water Resources until June 2001, but PG&E had to change its story because DWR found a smoking gun e-mail that proved PG&E's story was false. Carroll pointed out that Merced ID's concerns are with both transferred load and greenfield load and urged the Commission to decide this issue soon.

Summary: On October 14, 2004, Lenard G. Weiss, one of the attorneys for California-American Water Company (Cal-Am), had a telephone conversation with ALJ Cooke. Weiss discussed the appropriateness of the filing of the application without simultaneously filing a proponent's environmental assessment (PEA) and the applicant's suggestion that rather than dismissing the application, the timetable on its prosecution be suspended so that the time for commencing active prosecution of and responses to the application would not commence until Cal-Am files its PEA together with an updated application.

Pocta described the positive aspects of the settlement agreements filed in the proceeding addressing the cost of service applications of Southern California Gas Company and San Diego Gas & Electric Company. Pocta explained that the revenue requirements adopted in both the proposed decision and alternate proposed decision were in excess of the revenue requirements recommended in the settlements. Pocta requested that the Commission consider sponsoring an alternate decision adopting the settlements.

Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

Summary: On October 14, 2004, Christopher J. Mayer, Assistant General Manager Planning and Marketing, Modesto Irrigation District (Modesto/ID), met with Cmmr. Brown in San Francisco. Also present were David Gamson, advisor to Cmmr. Brown, and other attendees listed on the attachment to the notice. Mayer explained that some of Modesto's electric customers are located in a joint electric service area with PG&E. Mayer described load served by Modesto in the joint electric distribution service area, emphasizing that only a small amount of this load is attributable to customers that initially received Modesto electric service after February 1, 2001, most of which are new load customers. Mayer stated that without a CRS exemption, some of Modesto's customers would have to pay twice for the same measure of reliable electric service. Mayer stated that the record now clearly establishes that PG&E did reduce its load forecast for projected customer departure to Modesto and Merced IDs, and that the California Department of Water Resources did not purchase power for this load. Mayer concluded that transferred load exceptions to the MDL CRS should be allocated to Modesto customers, in addition to the new load exceptions provided in the Commission's MDL decision.

Summary: On October 13, 2004, Jennifer Dowdell, Manager, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Fitch, advisor to Cmmr. Peevey, in San Francisco. Also present were Walt Campbell, Senior Director, Business and Financial Planning, and Chris Warner, Attorney, for PG&E. Written material (attached to the notice) was used. Dowdell advocated changes to the unnecessarily restrictive conditions to the issuance of debt and preferred stock proposed by the draft decision. Campbell explained how restrictions in allowed short-term debt capacity and use of accounts receivable financing will limit the utilities access cash and potentially increase ratepayer costs. Campbell stated that accounts receivable financing is currently PG&E's most cost effective form of short-term financing. Warner discussed how project CEQA compliance is better managed through traditional approvals rather than in conjunction with a general financing order.
